Chang & Cote, LLP.
Paralegal
Aug 2013 - Jun 2014
Rowland Heights, CA
◦ Built new form of data structure for old files
◦ Mediated communication between lawyers and employees

PROJECTS

Kanye Choose Your Own Adventure (HTML, CSS, jQuery, JavaScript)
This is a basic CYOA-style game, where you help Kanye run away from Kim after he's cheated on her.

Sugar Rush (MongoDB, Express, Node.js)
I created RESTful API routing using Express and Node, schemas for a database in Mongo, and persistent login sessions using Express.

Piction Against Humanity (Node.js, Websockets, Canvas.js)
The idea behind this is the same as Cards against Humanity, but it comes with a chat platform that you can also draw on.

Software Superlative (Golang)
App in development for quickly, easily and hilariously generating LinkedIn recommendations.

EDUCATION

University of California, Irvine
BA Philosophy 2013
